

Tasmota is not a commercial product and support is limited. You have to be willing to research and solve potential problems yourself.

Detailed information about connecting, changing settings and modifications is shown on the website
["https://tasmota.github.io/docs/"](https://tasmota.github.io/docs/)

How to connect:

1. Plug in the device
2. Find open wifi hotspot with Tasmota word in name
3. Connect to it and go to 192.168.4.1 address in browser
4. Enter your wifi network name and password
5. After confirming network data, power strip will show you IP address that it will be available from, copy it, just in case.
6. It will automatically redirect you to this address after you network data is filled and saved.
7. Power strip is ready to use. Template and rules already activated, but in case you will need it later - you can find it below

A5T template:

```
{"NAME":"NOUS  
A5T","GPIO":[0,145,157,146,0,32,0,0,22,23,21,0,17],"FLAG"  
:1,"BASE":18}
```

GPIO #	Component
GPIO00	None
GPIO01	CSE7766 Tx
GPIO02	LedLink
GPIO03	CSE7766 Rx
GPIO04	None
GPIO05	Relay4i
GPIO09	None
GPIO10	None
GPIO12	Relay2
GPIO13	Relay3
GPIO14	Relay1
GPIO15	None
GPIO16	Button1
FLAG	Analog

How to reset device:

if there is power button:

Hold the power button 40+ seconds, untill light blinks and device restarts

if there is no power button:

Plug the device in and out 6 times and leave plugged in on the 7th - LED should start to blink, that means socket is ready to be connected again

if have access to the web interface:

type **reset 1** in console and press enter

Power monitoring calibration

You will need to calibrate your device for your power source, how to do that you can find here:

<https://tasmota.github.io/docs/Power-Monitoring-Calibration/>

Smart Home Intergrations

Tasmota is Incredibly expandable and flexible and can be integrated with:

Alexa, AWS IoT, Domoticz, Home Assistant, Homebridge, HomeSeer, IP Symcon, KNX, NodeRed, nymea, OctoPrint, openHAB, Otto, IOBroker, Mozilla WebThings Adapter, SmartThings, Tasmohab, Homematic ip, etc

for more info look here:

<https://tasmota.github.io/docs/Integrations/>
